Tips For Using This Book

1. We have printed the pictures on one side of the page only for the protection of each individual picture. A sheet of loose paper under the page you are working on will offer additional protection to the pages underneath.
2. Start with any page that grabs your interest - who says you need to start at the beginning?
3. Be free and color how YOU desire. There is no "wrong" way.
4. For a stress-relieving coloring experience, reduce noise and other distractions while coloring. Coloring with focus and intention is calming and nourishing for your spirit.
